

Thinking about life after the 'Job'?

Then PiPS might be just what you need

We are a team of serving and past police officers and employees with huge experience of both the Police Service and the private sector. Over the last year we have created a portal to support the transition of officers from Police service into the private sector; whether setting up their own businesses or seeking re-employment. We will work with you to get you in the best shape to achieve your desired success.

Our offering is extensive and growing on a continual basis. In addition to stand alone services you need, we have set up a membership scheme.

Blue Membership – A chance to get to know and join the growing community. Currently free to join it is a great group to subscribe to and be inspired for your next career.

Silver membership – an amazing package of information to get you ready to apply for the next job, it is not as easy as it once was so we offer the tips and insider view on how to get seen and employed in the quickest possible time.

Gold membership is for members wishing to set up their own successful business; we will fast track you there, sharing the knowledge on an ongoing basis. Avoiding the costly mistakes most of us make. We can help to formalise your ideas (or help you find them) and walk with you as you go from stage to stage.

LinkedIn group If you are a member of LinkedIn (we hope so) join us on the group Police into Private Sector. There are lots of engaging and informative conversations happening and it is a great place to connect with other officers in the same situation as you. Again this is a free service.

Get in touch and find out how we might be just the answer you need to support you on the successful path to your next exciting and engaging career, we know the talents that you have just need a little adjustment to make them exceptionally valuable in the private sector.
